

A Short History of Planet Earth: Mountains, Mammals, Fire and Ice

Author: J. D. MacDougal

Publisher: John Wiley and Sons, Inc.

<http://www.amazon.com/Short-History-Planet-Earth-Mountains/dp/0471197033#reader>

Overview

This exhilarating survey of the four and half billion years of Earth's history charts both the geological and biological history of the planet. It moves from the origin of the earth's iron core to the formation of today's seven continents, and from the primordial building blocks of life to the evolution of the human form.
