This publication contains the proceedings of an international conference, held in Pitlochry, Scotland in November 2002, to mark the United Nations (UN) International Year of Mountains 2002. The conference participants discussed the state of current knowledge about the mountains of Northern Europe and considered issues arising from the interactions between people and nature, and the conservation and sustainable development activities needed to benefit the natural heritage of mountain regions in the United Kingdom, Norway and Sweden, Finland and Iceland.
