

The Authors

Dr. Ram Bahadur Chhetri has been a faculty member at the Department of Sociology/Anthropology at Tribhuvan University, Kirtipur Campus, Kathmandu, since its establishment in 1981. He did his graduate studies at the University of Poona, India (on a Fellowship from Tribhuvan University, 1978-1980), from where he received a Masters in Anthropology in 1980, and at the University of Hawai, U.S.A. (on a Graduate Study Fellowship, from the Population Institute, East West Centre), from where he received a Masters (1986), a Population Certificate (1987), and a Ph.D. in Anthropology (1990). For his doctoral dissertation, he carried out research on the adaptation strategies of Tibetan refugees in Nepal (January 1988 to February 1989).

For the last two years, Dr. Chhetri has been involved in research projects on User Groups and Community Forestry in Nepal. He worked for ICIMOD as a Case Study Supervisor (December 1990 to June 1991) for the User Group Typology project and the book in hand is the outcome of this project. His areas of interest as an Anthropologist include Ecology, Population Studies, Social/Community Forestry, and Development issues. Currently Dr. Chhetri is working for the Nepal-Australia Forestry Project as a Social Scientist.

Mr. Tulsī R. Pandey has a Masters in Sociology from Tribhuvan University, Nepal, and a Masters in Development Studies from Ateneo De Manila University, the Philippines. Currently he is a member of the Faculty of Sociology at the Central Department of Sociology and Anthropology, Tribhuvan University, Kathmandu. He has been involved in a number of research activities with both national and international research and/or development organisations. His areas of research interest include social problems related to forest management, farming systems, rural poverty, and population. He has published a number of research reports and academic articles.
