

about the authors

Mr. Basanta Shrestha has an M.Eng. in Computer Science from the Asian Institute of Technology, Bangkok, Thailand and a B.Eng. in Electrical and Electronic Engineering from Madras University, India. He has extensive experience in the field of Information Technology and applications. He joined ICIMOD in 1990 and is currently involved in Geographical Information Systems' technology, Remote Sensing technology, and Global Positioning Systems' technology. Through different programmes at ICIMOD, he has contributed to improving information technology infrastructure and access to information in the HKH region. He has also published five reports and numerous papers on various aspects of these technologies and their applications. He realised the concept of and produced the ICIMOD CD-ROM containing about 180 publications.

Mr. Sushil Pradhan has an MSc. in Geo-Information Systems (GIS) for Rural Application from Wageningen Agricultural University and the International Institute for Aerospace Survey and Earth Sciences (ITC), The Netherlands. He has a post-graduate diploma in Geo-Information Systems and Computer Information Systems from the International Statistics Programs Centre/US Bureau of Census, in cooperation with Washington University, Washington, D.C., USA. He joined ICIMOD in 1994 and is currently involved in the application of 3-S (GIS, RS, GPS) technologies in various programmes of ICIMOD. He has published a report 'GIS Database of Key Indicators of Sustainable Mountain Development in Nepal' and a paper on 'Integration of GIS, Remote Sensing, and Area Frame Sampling for Crop Acreage Estimation'.
