Annex III Title Index

- Afforestation and rehabilitation of Imperata grasslands in Southeast Asia: identification of priorities for research, education, training and extension **163**
- The agricultural potential of red soils in southern China and the role of forages **105**
- The agricultural system in the hill of Nepal: the ratio of agricultural to forest land and the problem of animal fodder **378**
- Agriculture, horticulture and livestock planning **325**
- Agro-climatic resources and forage adaptability in the red soils region of south central China **101**
- Agro-ecological zones and pasture species for Pema Gatsel district [Bhutan] **092**
- Agroforestry and animal husbandry development on the wastelands of Sultanpur district **189**
- Agroforestry and animal production for human welfare: proceedings of an International Symposium held in association with the 7th AAAP Animal Science Congress on 11-16 Jul 1994 in Bali, Indonesia **195**
- Agroforestry as a feed base for livestock in semi-arid regions of Asia **198**
- Agroforestry in Asia and the Pacific: with special reference to silvopasture systems **196**
- Agroforestry systems in Africa: role in livestock production and protection of the environment **387**
- Agrosilvipasture systems in India **184, 185**
- Alpaca, a symbol and a source of hope in the Andes **416**
- Alpine pastures **042**
- Alpine pastures, ecology and improvement **011**
- An analysis of selling of ruminant animals in Kathmandu during Desain and Tihar festivals **342**
- Analytical approaches to farming systems research with an emphasis on animal production **204**
- The Andean camelids, llama and alpaca: the potentials and prerequisites for introducing these animals into other mountain environments **419**
- Animal agriculture in the central Himalaya **270**
- Animal experiments as a measurement of pasture productivity **151**
- Animal feed resources and current patterns of utilization in India **279**
