

## Technology

- QT NEP 1 Improved cattleshed for urine collection
- QT NEP 2 Improved terraces
- QT NEP 3 Legume integration
- QT NEP 4 Organic pest management
- QT NEP 6 Low cost drip irrigation
- QT NEP 7 Improved compost preparation
- QT NEP 8 Better quality farmyard manure through improved decomposition
- QT NEP 9 Improved farmyard manure through sunlight, rain and runoff protection
- QT NEP 10 Traditional irrigated rice terraces
- QT NEP 11 Landslip and stream bank stabilisation
- QT NEP 13 Rehabilitation of degraded communal grazing land
- QT NEP 14 Gully plugging using check dams
- QT NEP 15 System of rice intensification (SRI)
- QT NEP 16 Black plastic covered farmyard manure
- QT NEP 17 Drinking water quality improvement through conservation measures
- QT NEP 18 Rooftop rainwater harvesting system
- QT NEP 19 Polypit nursery
- QT NEP 21 Low cost micro-sprinkler Irrigation
- QT NEP 22 Plastic-lined conservation pond to store irrigation water
- QT NEP 23 Cultivation of fodder and grasses
- QT NEP 24 Urine application through drip irrigation for bitter gourd production
