| Foreword | |
| Preface and Acknowledgements | |
| Abstract | |
| Summary and Highlights of the International Conference on Ecohydrology of High Mountain Areas | (i) |
| Kathmandu Declaration | (xv) |

| | |
|--|----------|
| Part A: Regional Issues on High Mountain Ecohydrology | 1 |
| Mountain Ecohydrology: Issues and Challenges | 3 |
| A Short Introduction to the Surface Water Resources and Hydrography of Mongolia | 7 |
| Ecohydrological Investigations in the Himalayas | 13 |
| Water Resources in the Altiplano Region in Southern Peru, Their Isotope Composition and Origin | 23 |
| Present Status of Studies on Hydrological Aspects in Bangladesh | 35 |
| Ecohydrology of River Basins of Nepal | 49 |
| An Evaluation Method of Ecohydrological Conditions in High Mountain Areas: An Applied Study of the Lake Baikal Basin | 63 |
| Effects of Altitude on Ecohydrological Processes | 71 |
| The Particulars of Territorial Distribution and Anthropogenic River Runoff Variations for the Mountainous Area of Central Asia | 81 |
| Present Status and Problems of the Hydrology of Mountainous Areas of Pakistan | 89 |
| Effect of Global Warming on the Streamflow of a High-altitude Spiti River | 103 |

| | |
|---|------------|
| Part B: Network Design, Instrumentation, Data Collection and Processing | |
| Methodology and Modelling | 115 |
| Rainfall-Runoff Data and Modelling in the Likhu Khola Catchment, Nepal | 117 |
| Spatially Distributed Model Approaches to Hydrologic Processes and River Flow from Mountainous Regions | 129 |
| Developments in a Methodology of Classifying Sediments in Himalayan Rivers | 143 |
| A Hydrological Approach to Environmental Impact Assessment in the Himalayan Rivers: A Case Study of the Khimti River in Nepal | 155 |
| Soil Moisture Measurements with an Improved Time Domain Reflectometry System | 165 |
| Regional Methods for Computing the Mean Summer Temperature and Intra-annual Course of Global Radiation within Central Asia | 171 |
| Striving towards Assessment of Mountain Water Resources | 175 |
| Medium-Range Prediction of Winter Precipitation over India Using a Global Circulation Model | 187 |
| Structural Adaptation of a High Alpine Gauging Station (Vernagtbach, Oetztal Alps/Austria) to Greatly Enhanced Glacial Discharge | 199 |
| Combined Parameterisation of Orography-Induced Precipitation and Runoff for Regional Hydroclimatic Studies | 207 |
| Calibrating a Water Yield Model for Development of Hydrologic Parameters of Ungauged Small Watersheds in the Mountainous Terrain of the Tropical Monsoon Region | 219 |

| | |
|---|------------|
| Part C: Atmospheric, Hydrologic and Ecological Interaction | 227 |
| Hydrology of Nakhu Watershed - before and after the 1981 Disaster | 229 |
| Spatial Variations of Daily Evaporation Rates in a High Alpine Valley - the VERDI Project | 235 |
| Stream Water Acidification in Response to Anthropogenic Pollution | |
| Inputs at Forested and Cultivated Catchments in the Middle Hills, Nepal | 245 |
| Hydrochemical Characteristics of Headwater Streams in the Middle Hills and High Mountains of the Himalayas, Nepal | 255 |
| Estimation of Hydrological Balance Components under Variable Conditions of Mountainous Catchments | 265 |
| Estimation of Mean Annual Water Balance Components in a Midland Catchment | 275 |
| Estimation of Mean Evaporation Patterns with Respect to Elevation | 285 |
| Relationship of Transpiration to Rainfall, Air Temperature and Soil Moisture in a Mountainous Region | 291 |
| Principles of Hydrologic Regionalisation as Exemplified in the Upper Vistula Basin (Poland, East-Central Europe) | 299 |
| Peculiarities of Radiation Balance on Slopes and the Utilisation of These Peculiarities for the Computation of Evaporation from Mountain Basins | 311 |
| The Hydrological Cycle and Changes of Soil Water Storage in a Thuriferous Juniper (<i>Juniperus Thurifera</i> L.) Stand in the Moroccan High Atlas Mountains (Cycle de l'eau et variations du stock d'eau dans le sol dans une station à Genévrier thurifère (<i>Juniperus thurifera</i> L.) dans le haut Atlas du Maroc) | 315 |
| Part D: Role of Permafrost, Glaciers and Snow Cover | 323 |
| The Assessment of Snow Accumulation, Precipitation and Runoff over the Karakoram Glacier System from Satellite Images | 325 |
| Precipitation-Runoff Simulations for Small Himalayan Basins in Nepal with Important Snow Deposits | 331 |
| Snow and Glacier Hydrology in Nepal: Project Results for the Provision of Data and Information for Water Resources' Development | 347 |
| Approaches to Reducing the Hazard of an Outburst Flood of Imja Glacier Lake, Khumbu Himal | 359 |
| Melting and Evaporation of Glacier Systems in the Hindu Kush-Himalayan Region and Their Possible Changes as a Result of Global Warming | 367 |
| Periglacial Processes in the Khentei Mountains (Mongolia) | 377 |
| Snowmelt Runoff Estimation from a Himalayan Catchment Using Snowmelt Runoff Model (SRM) | 381 |
| Glacier Ablation under Debris Cover: Field Observations on Lirung Glacier, Nepal Himalayas | 393 |
| Distribution of Snow Cover in the Mountains of Central Asia | 405 |
| The Contribution of Glacier Melt to the River Discharge in an Arid Region | 413 |
| Mathematical Modelling of Flood and Debris Flows Caused by Outbursts from High Mountain Lakes | 423 |
| Part E: Dynamics and Hazards of Erosion and Sedimentation, Ecosystems of High Mountain Areas and Landscape Processes | 431 |
| Hazards of Erosion and Sedimentation Due to Cloud Burst in Small Catchments - A Case Study from Kumaun Himalayas, India | 433 |
| Soils on Glacial and Glaciofluvial Deposits in Central and Eastern Nepal in Relation to Classification and Landscape History | 439 |

| | |
|--|-----|
| A Survey of Discharge and Suspension in the Landscape Ecology of a Swiss Alpine Catchment Area | 451 |
| Problems of Holocene Glacier Advances in Langtang, Central Nepal | 459 |
| Surface Runoff, Soil Loss and Land Use Studies in Two Micro-Catchments of the Western Himalaya, India | 467 |
| Some Results of Long-term Variability of Avalanche Activity in the Mountains of the CIS | 473 |
| Hydrologic Aspects of the Sierra Nevada Ecosystem Project | 481 |
| Research on Environmental Change in Southern Tibet | 489 |
| Hazards of Erosion and Its Effects on the Water Resources of Pakistan | 505 |
| Impact of Tourism on Ecohydrology in the Headwater Region of the Beas, Himachal Pradesh | 519 |
| Assessment of Erosional Hazards in the Himalaya: A Case Study of Chamoli District in Uttar Pradesh (India) | 527 |

Part F: Water Quality and Limnological Issues **535**

| | |
|--|-----|
| Ecological Characteristics of the Benthic Macro-invertebrates of High Altitude Streams (Morocco) | 537 |
| The Relationship between Climate and Vegetation in the Moroccan Western High Atlas Mountains | |
| The Relationship between Climate and Vegetation in the Moroccan Western High Atlas Mountains (Relation Climat-Végétation dans le Haut Atlas occidental marocain) | 545 |
| The Impact of Flood on the Benthic and Aquatic Riparian Communities of the Ourika River in the High Atlas Mountains (Morocco) (Impact des crues sur les peuplements benthiques et ripicoles aquatiques de l'oued Ourika - Haut Atlas (Maroc)) | 557 |
| The Larva of <i>Himalopsyche tibetana</i> (Insecta: Trichoptera, Rhyacophilidae) with Some Ecological Notes on the Genus <i>Himalopsyche</i> Banks, 1940 from Nepal | 561 |
| A Neutron Activation Study of the Geochemistry of Natural Water in Lhasa, Tibet, China | 573 |
| The Integrated Pest Management (IPM) Approach as an Alternative Pesticide Use in Nepal | 579 |
| Diatom Communities in Himalayan Hill Streams | 589 |
| Nepalese Water Beetles (Coleoptera) Dryopidae, Elmidae, Helophoridae, Hydraenidae, Heteroceridae, and Hydroscaphidae | 599 |
| Biological Rapid Field Assessment of Water Quality in the Bagmati River and Its Tributaries, Kathmandu Valley, Nepal | 609 |
| Distribution and Species' Composition of Leeches (<i>Annelida: Hirudinea</i>) in the Aquatic Habitats of Nepal | 623 |
| Biodiversity, Chemistry, and Structure in Streams of the Nepal/Himalaya: Developing Biological Indicators of Change | 631 |
| The Applicability of Biotic Indices and Scores in Water Quality Assessment of Nepalese Rivers | 641 |
| Ecohydrological Influence on Growth and Clump Maintenance of <i>Potamogeton Crispus</i> L. in Punyamati River, Panauti | 659 |

List of Participants **667**
