PREFACE

This discussion paper, **Performance of the Tourism Sector**, is the fourth in the Area Development Planning and Implementation Series of ICIMOD.

This series was introduced following an exercise undertaken by ICIMOD in integrated development planning.

Integrated area development planning and its implementation offers a systematic approach to the promotion of mountain development. Development programmes must find practical methods that reconcile the conflicts between increased productivity and environmental sustainability.

At the request of the National Planning Commission, HMG/Nepal, ICIMOD undertook the task of preparing an integrated economic and environmental development plan for the Bagmati Zone of Nepal. This paper is part of the series evolving from that planning exercise.

Contents

PERFORMANCE OF THE TOURISM SECTOR	1
Introduction	1
Tourism Development Objectives and Policies	1
Growth of Tourism	2
<i>Growth in Tourist Arrivals</i>	2
Level and Pattern Of Tourist Expenditure	5
