*Peter L. Berger,
Sociology: A Disinvitation? (1992)*

"Sociology is not so much a field as a perspective;
...thus one can study the economy, or the political sys-
tem,... from perspectives that are quite different, one
of which is sociology....Sociology, as a science, will nec-
essarily be an exercise in rationality. This is a far cry
from assuming that ordinary social action is guided by
rationality."
