acknowledgements

I am immensely grateful to Dr. Colin Rosser, Director, ICIMOD, for his sincere interest in, and valuable guidance concerning, this study. I have also gained a great deal from the invaluable insights of Dr. M. Pankaj Shrestha, Chief Programme Coordinator, ICIMOD.

Thanks are due to Mrs. Bharat Mani Shrestha, Saroj K. Basnyet and Pankaj Shrestha for their assistance in the field Opinion Survey in Kakani Panchayat as well as the Household Survey in Rangpoth. The enthusiasm of the Kakani Community and the Panchayati Panch, Mr. Sanu Man Lama, should not go unrecorded. The community provided the needed information for the report. My thanks are small returns for the help afforded by them.

It is not possible to record here the names of all those who have helped me. Many provided the much needed time and information. Some names are recorded in Appendices I to IV.

Mrs. Pramod Pradhan tabulated the results of the Household Survey in Rangpoth. The maps were prepared by Chandra Joshi, Babbar Shrestha and Susan A. Ranger under the supervision of Mr. Pradyumn Kumar Paudyal. Pramod provided the secretarial work to prepare the final report and Greta Rana edited it.

I thank them, every one.
