

## Mountain Communities: The Cycle of Vulnerability

### From Self-contained Hamlets to Regional and Global Integration

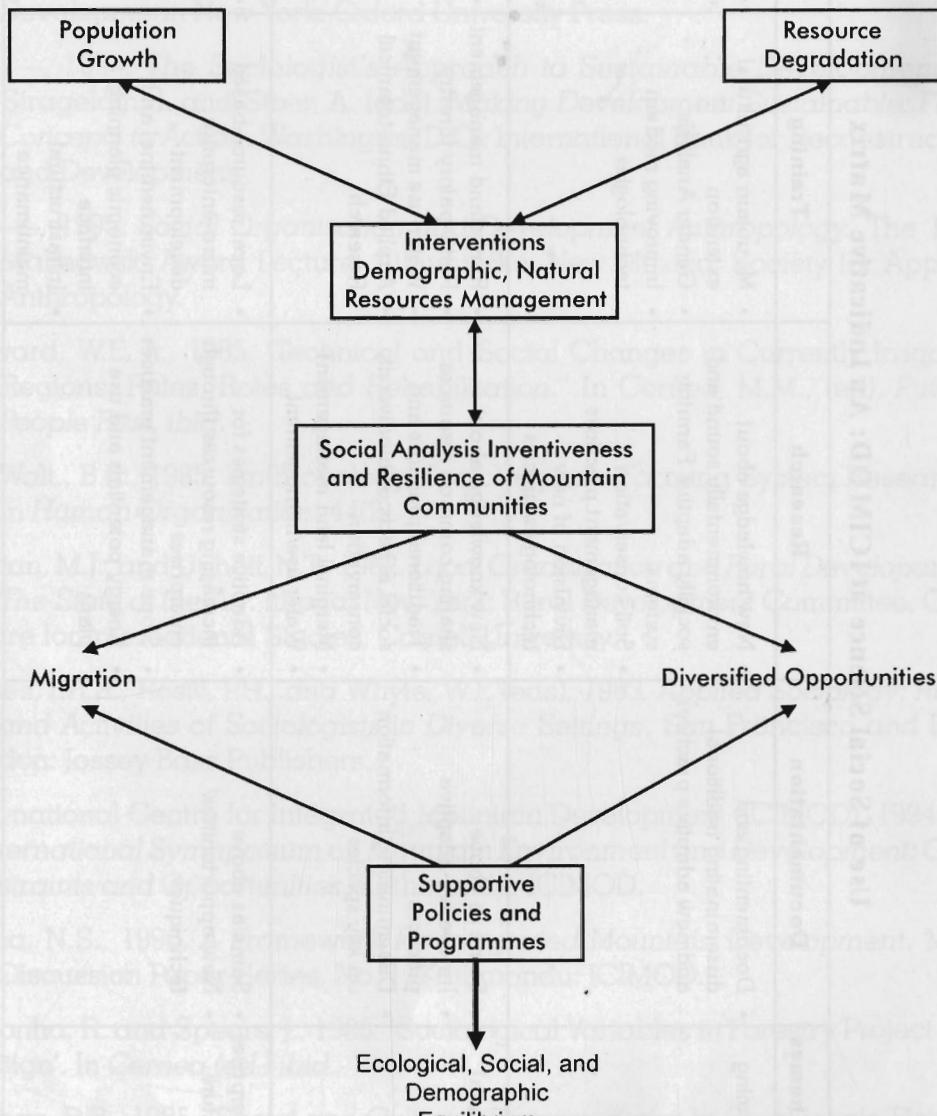

### **Repeat of the cycle**

### Externlities/Exogenous Constraints

- Lack of supportive policies, regulations, and incentives for sustainable use of mountain natural resources
- Inadequate policy response, development interventions based on area-specific focussed research

### The New Mountain Perspective

## Annex 3

### Use of Social Science at ICIMOD: An Indicative Matrix

<b>Functions/Themes</b>	<b>Documentation</b>	<b>Research</b>	<b>Training</b>	<b>Advisory</b>
<b>Mountain Farming Systems</b> <ul style="list-style-type: none"> <li>• Documenting and disseminating traditional and new adaptive practices</li> </ul>	<ul style="list-style-type: none"> <li>• New knowledge about environmentally sound and socially adaptive Farming systems</li> <li>• Soil conservation management practices</li> <li>• Division of new technologies/species</li> </ul>	<ul style="list-style-type: none"> <li>• Mountain agricultural extension</li> <li>• Gender Analysis</li> <li>• Improving modern technologies</li> </ul>	<ul style="list-style-type: none"> <li>• Mountain agricultural extension</li> <li>• Gender Analysis</li> <li>• Improving modern technologies</li> </ul>	<ul style="list-style-type: none"> <li>• Offer specialised services to bilateral multilateral and member countries in project/plan preparation monitoring, evaluation</li> </ul>
<b>Mountain Natural Resources</b> <ul style="list-style-type: none"> <li>• Same as above</li> <li>• Innovative-adaptive practices</li> <li>• Disseminating information on key species</li> </ul>	<ul style="list-style-type: none"> <li>• New knowledge about sharing common resources</li> <li>• Traditional practices and social aspects of biodiversity conservation</li> <li>• Marginal land management</li> <li>• Water use/management</li> </ul>	<ul style="list-style-type: none"> <li>• Rangeland management</li> <li>• Participatory forestry</li> <li>• Water-use management</li> <li>• Applied Ethno-botanical Research</li> </ul>	<ul style="list-style-type: none"> <li>• Rangeland management</li> <li>• Participatory forestry</li> <li>• Water-use management</li> <li>• Applied Ethno-botanical Research</li> </ul>	<ul style="list-style-type: none"> <li>• Same as above</li> <li>• Same as above</li> </ul>
<b>Mountain Enterprises and Infrastructure</b> <ul style="list-style-type: none"> <li>• Same as above</li> <li>• New opportunities/ techniques</li> </ul>	<ul style="list-style-type: none"> <li>• Adaptive strategies for increasing resources through enterprises</li> <li>• Slope management practices</li> <li>• Energy potentials and use plans</li> </ul>	<ul style="list-style-type: none"> <li>• Local resource-based micro-enterprise development</li> <li>• Environmental and economic planning interface</li> <li>• Infrastructure maintenance</li> </ul>	<ul style="list-style-type: none"> <li>• Local resource-based micro-enterprise development</li> <li>• Environmental and economic planning interface</li> <li>• Infrastructure maintenance</li> </ul>	<ul style="list-style-type: none"> <li>• Same as above</li> <li>• Same as above</li> </ul>
