

Alternative Energy Promotion Centre

Clean Cookstoves Market Place 2013

Alternative Energy Promotion Centre, in close collaboration with the International Centre for Integrated Mountain Development (ICIMOD), SNV Nepal, and the Energy for All initiative of the Asian Development Bank, and with support from many national and international partners, has organized Cookstoves Market Place 2013 (CCMP 2013) held in Kathmandu 10 – 12 July 2013.

The main goal of CCMP 2013 was to create an opportunity for all international and national organizations involved to promote clean cooking technologies in Nepal. The event was specifically focused on improved cookstoves (ICS) – biomass stoves for households and institutions that burn solid biomass with improved efficiency.

Strategic Partners

Objectives

- Showcase the successful national and international ICS designs and business models
- Exploration of 'business to business' opportunities between international-national, national-national, and national-local entrepreneurs
- Explore investment opportunities and identify possible means to facilitate linkages between ICS entrepreneurs and financing institutions
- Launching of Nepal Alliance for Clean Cookstoves (NACC)

Event Highlights

Launching of NACC

National and international participants

Stove's Live Demonstration

Demonstration stalls

Key Outcomes:

- 372 national/international delegates participated in the event and 5,000+ visitors visited the exhibition stalls
- Successfully launched the Nepal Alliance for Clean Cookstoves (www.nepalcookstoves.org)
- Showcased business opportunities for clean cookstoves in Nepal
- Successful in showcasing the national and local clean cookstoves entrepreneurship
- Succeeded in attracting the national organizations to coordinate with each other for future programmes in clean cookstoves
- Realization of sensitivity of the essence of this small but very important technology in daily life of every people
- Showcased the international clean cookstoves entrepreneurship
- Financial institutions and umbrella organizations of MFIs/LFIs came up with financial models for financing in clean cookstoves
- Exhibited different models of clean cookstoves developed nationally and internationally
- Coordinated national stakeholders in organizing mega events through sponsorships
